

### Activity 5 Reasons for change

Read the discussion Ramen had with Brian when he got back to the storeroom.

- Underline the reasons Ramen gives for wanting a trolley.
- Circle the parts that show Brian doesn't think they need a trolley.

Ramen Brian, do we have a trolley?

Brian What?

Ramen A trolley.

Brian A trolley? What would I want a trolley for when I've got a big strong bloke like you?

Ramen Well, with all the lifting up and down of boxes, I think a trolley would be useful... they've got them over in Finance.

Brian Well, it's full of girls over there.

Ramen With all the manual handling we do, it will save back problems and everything.

Brian Yeah, yeah, OK. I used to lift boxes twice that size.

Ramen So, can we get a trolley?

Brian Yes, Ramen. I'll see if we can get a trolley.

Ramen OK. So. I might borrow the one in finance to shift these boxes.

Ramen I'll be able to take at least four at a time then.

Brian OK. Good idea. You go and get the trolley and I'll order one for our section.

*Discuss.*

- What does Brian think is the best reason for getting a trolley?
- If you were the OH&S representative at the workplace, what reason do you think is the best for getting a trolley?

### Activity 6 Because...

Read the suggestions from workers about doing things differently in their workplace. Match the suggestion with the reason from the box on the next page.

The first one is done.

1. What do you think about painting that wall?	e
2. Perhaps we could do half each.	
3. I think it would be good if we had a filing system.	
4. How about we have a break?	
5. Have you considered asking Gustavo to help?	
6. Maybe we could get a video camera.
